

## Mix Proof Valves / General Food

### PRODUCT HIGHLIGHTS

### WHY SPX FLOW?

Food and beverage processing has never been more challenging. Margins are being squeezed, food safety is paramount, and consumer demands for new products make formulation changes a regular occurrence. The SPX FLOW valve line helps you meet these challenges head on, by providing a flexible design (modular bodies and actuators). They are easy to maintain and provides a very low cost of ownership (minimal proprietary spare parts). When it comes to know-how, experience and product range within the field of valves, you won't find a better business partner than SPX FLOW.

### FEATURES

- Full mix proof variants portfolio
- Robust design and manufacture
- Unique Tef-Flow™ seat option
- Balanced design
- Maintainable seat lifting and non-seat actuator
